PERSONAL INSIGHTS/ASSESSMENT GUIDE QUESTIONS

1. What did I learn FROM MY Internship experience in terms of Knowledge, Skills, and Attitude?

I learned how to work with others, enhanced my researching skills, endurance for searching or finding ways on how to solve problems, and the most important is enhancing my programming skills and knowledge. Especially the HMVC in CodeIgniter.

2. In what situation/s was I able to apply the Expected Lasallian Graduate Attributes (ELGA)?

Throughout my internship, I actively applied the Expected Lasallian Graduate Attributes (ELGA) in various situations. Specifically, the attributes of "competence" and "commitment to social justice" were evident in my dedication to producing high-quality work that not only met but exceeded expectations. Developing softwares as honest and as best as my abilities.

3. How are these learnings helpful in preparing myself for professional life after college?

This will help me in my future as IT whether it is as a developer or any other IT related work..

4. What can I recommend for the improvement of the Internship Program?

None.
